DR-400

Vanguard® RIBs can be produced in PVC Hypertex®, CSM Neoprene-Hypalon Orca866® or Akron-TPE®

DR400

DRAKEN SERIES

The DR-400 is a versatile multi-purpose boat used in a wide variety of conditions, where safety and safe handling are required. The hull has a narrow "V" that allows for stable, fast and dry sailing. The generous beam provides greater load capacity and/or more space for the passage, which is a perfect tool for almost all purposes. It is used by various Bodies, Armed Forces, Rescue Organizations and other users who are looking for versatile, fast and safe boats.

- 100% configurable boats.
- Specific designs for different activities (Rescue, Club, Diving, Patrol, Charter, etc.),
- Ask us about the possibility of deciding the configuration of the boat since the design phase. info@vanguardmarine.com
