

TX-540

TX-540 Life Boat

TX-540 Perimeter

Specifications	TX-540
Category	C
Length overall	5,40 m
Length inner	4,22 m
Beam overall	2,15 m
Beam inner	1,13 m
Tube diameter	0,49 m
Nº compartments	5
Max. load	1085 kg
Max. people	9
Max. power	75 kW - 100 HP
Max. motor weight	228 kg
Shaft type	L
Craft weight	374 kg
Packing measurements	5,2x1,9x1,1 m
Telescopic paddles	2
Bilge pump 2400 l/h	1
Fuel tank capacity	100 lts

TX-540

Vanguard® RIBs can be produced in PVC Hypertex®, CSM Neoprene-Hypalon Orca866® or Akron-TPE®

TX540

TOURMAX SERIES

TX-540 deep V shaped hulls from bow to stern with pronounced strakes along the full length of the hull makes it possible to cut through the waves even in harsh sea conditions, increases their lift and hold power when manoeuvring, maximising the power and speed ratios. Internal support structure with military-grade specifications and practically unsinkable buoyancy reserves.

These models are used for rapid intervention operations, offshore rescue, extreme charter auxiliaries and other activities that demand high specifications, speed and double motorization.

- 100% configurable boats.
- Specific designs for different activities (Rescue, Club, Diving, Patrol, Charter, etc.),
- Ask us about the possibility of deciding the configuration of the boat since the design phase.
