

QUALITY POLICY

Vanguard Marine's Quality Policy was defined to be compatible with its objectives, customer / distributor needs and continuous improvement, through the following key principles:

- Disclose the policy to all collaborators and relevant interested parties.
- Promote the necessary training to all employees to ensure a continuous process of knowledge acquisition.
- Produce a problem-free product that meets customer needs and expectations and complies with applicable legal and regulatory requirements.
- Accompany and continuously improve the effectiveness of the management system, based on the NPEN ISO 9001:2015 standard, which ensures that the quality objectives are met.
- Comply with all legal standards used in Vanguard Marine, associated with the directives 2013/53/EU for recreational craft and 2014/90/EU on marine equipment.
- Comply with UK legal directives Recreational Craft Regulations 2017 and Marine Equipment Regulations.
- Survival over time as a source of economic wealth, development and social welfare for all personnel.

Mission

To meet the needs of our Customers and Distributors in a satisfactory and competitive manner, continuously improving our products, processes and the development of our professionals.

Outlook

To be a reference company in the nautical sector specialized in the Design, manufacture, repair and sale of inflatable boats, semi-rigid boats, rigid boats with floats and rigid boats.

Values

The values cultivated at Vanguard Marine are:

- a) Results orientation - Meet and/or exceed customer expectations.
- b) Continuous Improvement - Continuous improvement of products and processes.
- c) Team spirit - We value teamwork and respect for each other.
- d) Employee valorization and development - Contribute to the continuous development of employees, as well as the valorization of their competencies and contribution to the achievement of results.
